EXTENDED LEARNING

The percentage of 4-year graduation cohort students who complete state and district graduation requirements will increase from 81.2% in August 2020 (or a decline in the benchmark due to COVID) to 86% in August 2026.

GRAD COMPLETION

The Grad Completion program is a newly developed option for the CCS students who did not meet graduation requirements in 2021. Students are provided with support and encouragement to complete courses and work towards their graduation goals. Students in this program have the option to work from home or in our supervised lab located on the campus of Ft. Hayes. Students are required to join the VCAP Grad Completion Google Classroom where they will be able to receive updates, get teacher contact information, make test unlocking requests and other support. Progress will be continuously monitored and students will be contacted to help boost motivation and ensure success.

The Grad Completion Lab is located at:
Ft. Hayes Center Building 101
Room 205
Lab Hours: 7:30 AM - 2:30 PM
Our Team: A. Eddings; J. Mastracci; L. Hamilton

CREDIT RECOVERY

Credit Recovery is an online opportunity for students to recover course credit that was not passed in the traditional classroom. CCS students at or below a 2.0 and trying to remain eligible should know that APEX courses are not calculated into the GPA to earn/maintain eligibility. Typically, the NCAA will not accept APEX online credit recovery coursework. Student-athletes planning on playing in college should NOT enroll in Credit Recovery courses. (Each HS will have 5 teachers boarded for 250 hours)

CREDIT ADVANCEMENT

The Credit Advancement Program is a standards-based digital curriculum designed to provide students the opportunity to work ahead, fulfill schedule shortcomings, and/or stay on track. Extensive courses offerings are available in all core areas and foreign language, art, technology, and selected elective classes. Lessons provide differentiated instruction to enable all students to find academic success.
