MANAGEMENT DISCUSSION AND ANALYSIS

Mission: Each student is highly educated, prepared for leadership and service, and empowered for success as a citizen in a global community.

Executive Summary

Fiscal year-to-date through February, total revenues are over plan (\$48.1 million, 6.4%) and total expenditures are over plan (\$3.3 million, 0.6%), taking the cash balance to \$44.8 million over plan at \$519.1 million. Property tax revenues are \$22.1 million over plan, State Aid is \$20.1 million over plan, and Other Revenues are \$4.9 million over plan. Personnel costs are \$4.6 million under plan, Purchased Services are \$4.7 million over plan, and Supplies and Materials are \$2.7 million over plan YTD.

Through February 2024

Year to Date Revenues and Expenditures Overview^{1,2}

The annual spending plan was developed using data from the November 2023 Five Year Forecast (FYF). The data is allocated monthly using an average of prior fiscal years' actual revenue and expenditure activity. Using blended percentages of monthly expenditure activity for each line item works to smooth out month to month variances from one year to the next solely due to timing and not specifically indicative of behavioral changes. However, certain line-item allocations were modified to reflect the “bullet” nature³ of certain revenue or expenditure lines. For instance, rollback and homestead exemption is, in large part, received in one month twice each year but the actual month may vary year to year. Using the historical average of the monthly activity would spread that flow over several months creating monthly variances indicative of plan construction, not a change in actual behavior. For the plan, a singular month(s) was chosen as an estimate of when rollback and homestead exemption would be received. Monthly timing variances will be isolated to a one-to-two-month period and give a better (and sooner) picture of actual vs. planned revenue for this line.

An adjustment was made in the plan to account for the atypical level of advances-out in June 2023. At the end of each fiscal year, the unencumbered ending cash balance for every fund must be greater than or equal to zero. The General Fund acts as “banker” to the other funds at year end and advances are made from the General Fund to temporarily cover deficits in other funds' ending unencumbered cash balances. These advances are returned to the General Fund soon after the beginning of the new fiscal year (FY2024), hence this transaction is merely an accounting entry and not indicative of a true, long-term reduction in General Fund cash balance. However, the General Fund must have sufficient cash to cover these advances. At the end of FY2023, the ESSER fund had an unusually large negative unencumbered balance⁴, \$85.7 million, which inflated the June 2023 advances-out for the General Fund to \$99.1 million: significantly higher than the typical \$12 million. The spending plan and FYF was modified to \$89.5 million in both advances-in and advances-out to reflect the expectation this behavior will continue until the ESSER funds expire.

As a reminder, FY24 is the first year of the state's biennial budget and the third year of the new state funding model (the Fair School Funding Formula) that funds students where they are educated, not necessarily where they live. The impact on both revenue and expenditures of this new funding mechanism is reflected in the spending plan as was the case last fiscal year.

Revenues for February were \$89.8 million over plan and YTD were \$48.1 million over plan. Expenditures for February were \$4.6 million over plan and YTD were \$3.3 million over plan.

¹ Monthly financial reports are prepared in alignment with the five-year forecast and as such include revenue and expenditures of the General Fund plus certain Debt Service Fund activity that is General Fund related.

² Numbers in graph titles and charts, e.g., “2.080”, reference the corresponding line numbers in the financial report and FYF.

³ Certain revenue or expenditure items occur only once or twice each year, but the month may vary from year to year. For the plan, one or two specific months were selected for these lines.

⁴ Like other state and federal grants, the expenditures in the ESSER fund are covered on a reimbursement basis and at the end of FY23 there was a significant amount of expenditures in queue for reimbursement along with a large amount of outstanding orders (encumbrances) creating a higher than normal deficit unencumbered cash balance.

Property Taxes (1.010) –Property tax receipts for the month were \$86.7 million over plan. The YTD over plan variance is at \$22.1 million or 4.5%. The spending plan for property taxes assumes equal collections throughout the third quarter. Settlement is anticipated in March at which time we will have a more complete picture of the full fiscal year variance.

State Aid (1.035 & 1.040) –Over plan this month \$1.7 million shifting the YTD variance to \$20.1 million over plan, an 18.0% variance. The lawsuit on the transportation non-compliance penalty is still ongoing and could ultimately result in a downward adjustment in State aid received this fiscal year. Pending the outcome of that lawsuit, \$30 million was factored into the plan for this fiscal year for transportation noncompliance penalties that have not yet been realized.

Restricted Federal Grants (1.045) – Federal reimbursement of interest on the Qualified School Construction Bonds (QSCBs). The payment received in July is the result of a catch-up payment that was expected to be received in June 2023. No activity this month.

State Share of Local Property Taxes (1.050) – There was no activity this month.

All Other Revenues (1.060) – Comprised of items such as tuition, fees, and investment income, the significant contributors are the Medicaid reimbursement and direct payments to the district for property tax settlements (PILOTs) and income tax sharing. Win-Win payments are also included on this line. Over plan this month at \$1.4 million bringing the YTD variance to \$4.9 million over plan.

Personnel (3.010 & 3.020) – \$1.6 million over plan this month, and \$4.6 million under plan on the year, 1.0%. The spending plan for personnel assumes we are fully staffed and identifies 3-pay months and then distributes the balance equally over the remaining months and we continue to believe that vacancies and the equal-distribution plan mechanism account for the variance thus far.
