

2021

Columbus School of Practical Nursing Scholarship

“Start Changing Lives”

Completed Application packet must be received by

June 11, 2021 3:00pm

Mission Statement

Adult and Community Education improves lives of adult students through personalized, quality learning.

School History and Philosophy

The Columbus School of Practical Nursing (CSPN) has been in continual operation since 1953. CSPN has been a part of Columbus City Schools since February 1959 with community support and the Ohio Department of Vocational Education. The CSPN graduates three (3) classes of students per year.

Dedicated, capable faculty members are central to the operation and successful outcomes of the nursing program. Various hospitals and extended care facilities in the community are in contract with the school to provide clinical experiences for the students.

Nursing students who graduate from the practical nursing program at CSPN will be eligible to apply for the NCLEX-PN licensure exam with the Ohio Board of Nursing. After passing the NCLEX-PN exam, students may begin their career as a Licensed Practical Nurse. The State Board exam scores for CSPN remain consistently above the state and national means. The CSPN program has a status of Full Approval from the Ohio Board of Nursing and is accredited by the Council on Occupational Education.

The CSPN believes that learning is best accomplished in a caring environment. Students not only learn how persons and groups adapt to changes in their internal/external environment, but also apply this knowledge to their own lives. Learning is a shared responsibility between faculty and students. It is optimized in an atmosphere that encourages respect and uniqueness of the individual.

Nursing faculty supports learning by creating a climate where students experience stimulation, challenge and the spirit of inquiry. Nursing faculty create a learning environment where students are respected and accepted. The faculty assists students to value their strengths, identify areas for improvement, and realize their professional boundaries. Faculty provides teaching opportunities which promote active student participation in the classroom, laboratory and clinical settings. The clinical focus provides students with opportunities to care for individuals and groups throughout the life span. Continuing evaluation of both faculty and students is evident throughout the curriculum. Learning is a life-long process. CSPN recognizes the value of personal and professional growth and fosters the commitment to lifelong professional development.

Scholarship amount

- Full tuition to CSPN, after any grants and/or other scholarships are applied.
- Scholarship is awarded for one (1) academic year only (Defined as three consecutive trimesters as a full-time student).
