

HVACR Admission Criteria

There are 2 pathways to admission into the HVACR program:

Pathway 1:

The applicant must be at least 18 years of age and have earned a High School Diploma or High School Equivalency (GED, HiSET, or TASC). International students must have their foreign high school transcripts evaluated by a credential evaluation service.

Pathway 2 Adult Diploma Program:

If the applicant is at least 20 years of age and does not meet the above Pathway 1 admission criteria, before applying to the HVACR program, he/she is to:

- Achieve the recommended score in the Test of Adult Basic Education (TABE) test ; *and*
- Achieve the required score in the WorkKeys assessment.
