

POWER STANDARDS

FOR AIR TESTS-SECONDARY ELA

These are the Ohio Learning Standards that have aligned questions on the AIR tests. Be sure to teach these standards for mastery and use AIR-like questions frequently that adhere to these when writing and speaking about literary and informational texts. **Read, Write, and Discuss Every Day!**

This chart shows the number of released AIR questions (2016-19) aligned to each Standard.

NOTE: This chart only reflects the number of released items aligned to each Standard. Since ODE does not release full-length administrations of AIR, this chart cannot reflect all items on previous AIR tests. Also, every AIR test in Grades 6-10 has one argument and one informative/explanatory writing prompt that asks students to write fully-developed essays, so Standards W.1 and W.2 are aligned to one question on each AIR test.
