Grants to USA Pre-K Teachers to Integrate Visual Arts in Educational Programming

GrantWatch ID#: 170095

Agency Type: Foundation / Corporation

Funding Source: P. Buckley Moss Foundation for Children's Education

Deadline: 09/30/20

Conf. Date: 00/00/00

Description: Grants of up to \$1,000 to USA educators for projects that enhance educational programs through art. Funding is intended to provide students in grades Pre-K to 12 with increased learning opportunities, which can strengthen motor skills and concept training. Eligible uses of funds include the purchase of visual art supplies to be incorporated into non-art disciplines, including math, science, and geography.

Full Description:

Visual art is best described as creative works which are primarily visual in nature, such as drawing, painting, sculpting, ceramics, architecture, printmaking and photography. Through the addition of these subjects to education programs, teachers are able to expand the "teaching tool box," by having another method to reach out to those who learn differently.

The grant money awarded is specifically for acquisition of visual art supplies. Examples are: paint, clay, modelling materials, tiles, markers, pencils, and paper, to name a few. The grant is intended to provide hands-on opportunities for the students to explore art in a variety of applications.
