# Did You Know?

Binns Elementary School offers a wide variety of extra curricular activities and learning opportunities that are incorporated throughout your students day. Some of these include Art, Choir, Music, Instruments, Physical Education, Library Time and Computer Lab. Each of these extra curricular activities are included to ensure your students have a well rounded education and get experience in many areas. Your students are not just singing or coloring or getting physical activity accomplished. They are learning musical techniques and musical theory. They are learning musical notes and how music is incorporated into all of life. They are learning about popular artist and how they created their masterpieces. They learn how to observe and focus on a subject and to learn new artistic techniques and be creative while doing so. They are learning how to ride a bicycle and follow the bicycle rules and safe cycling. They are learning how to work together as a team, how to win gracefully and how to lose the same. They are becoming GREAT students and children who will hopefully use these skills as they grow and become GREAT adults.

If you want to see what your students are learning, creating and experiencing consider attending the Unified Arts Night scheduled during the month of May. Dates to be determined soon! Keep your eyes out!
