

ELEMENTARY SCHOOL

Learning opportunities for **ELEMENTARY SCHOOL** students!

Elevating Kindergarten & Elementary School

Summer camps are the perfect opportunity for students to stay active, engage in unique learning, and make lasting memories, and each of these is especially important for our youngest students.

Students will participate in “mini-camps” at destinations like Spruce Run (Pre-k and Kindergarten only), the Columbus Zoo & Aquarium, COSI, and more! These will keep students engaged in fun activities that enhance their skills in literacy, mathematics, science, along with growing them socially and emotionally.

Pre-K & Elementary Mini Camps

Pollinators & Habitat • Comic Book Creation •
Shark Tank • Gadgets to Go • Arts in Nature • And More!

Our Summer **Super Scholars Academy** is a learning opportunity open to all Columbus City Schools first and second graders enrolled in Summer Experience, and it extends their weekly activities to five days of immersive learning. In addition to the enrichment happening Monday through Thursday, these students will continue to increase foundational reading, writing, and math skills centered around the Friday theme of “Super Scholars.” Students will attend the **Super Scholars Academy** at their registered Summer Experience site and follow the same arrival and dismissal schedules.
