### SPECIALTY LEARNING OPPORTUNITIES/CURRICULUM

We follow the elementary/middle school State of Ohio and Common Core curriculum with a strong emphasis on the integration of science, technology, environmental studies/engineering, arts, and math. Students in 1st, 3rd, and 5th grades are expected to participate in either overnight or day camps as part of our outdoor education program. The Literacy Collaborative Framework is used for reading instruction in all grades. We use Glencoe math resources in all grades. Middle School students participate in the project: Gateway to Technology program in 6th grade. In addition, 8th graders have the opportunity to earn high school credit for various Unified Arts courses. Our Unified Arts program includes Spanish, art, vocal music, instrumental music, and physical education. We enjoy many partnerships that enhance our instructional program, including but not limited to Junior Achievement.

### WHAT MAKES OUR SCHOOL OUTSTANDING

Berwick has dedicated teachers and supportive parents that work together to see that all of our students achieve their potential and beyond. In the past Berwick has won awards for its exemplary environmental and science program. Parents of 8th grade students may request that their child attend the outstanding Eastmoor Academy for high school through the district reservation process.
