FAMILY SUPPORT & RESOURCES

We value and strive for a strong connection with families, friends and community. This strengthens our students' school experiences and success within their educational career. We believe the three fundamental goals of our school are: (1) success for every child; (2) empowerment of parents through partnership and (3) integration of services to children by using a team approach. These goals are accomplished by an emphasis on student attendance, school-based intervention, parent involvement, and school/community service integration. Our Family Ambassador acts as a liaison between school and our Southwood families and friends.
