Message from Dr. Milligan

Unfortunately we have not received information yet about Chromebook or hotspot distribution. My hope is that we'll get that information soon and that each Briggs student will have their own electronic device to engage in their online learning this Fall.

In a few weeks we will hold our virtual grade level orientations. At these meetings we will discuss our online learning platform and supports available to our students. We will go over schedules as well as how students will navigate their virtual schedule online. These sessions will be recorded and available for you to view on our Briggs website if you are unable to attend the live meetings.

If you have questions you can call the school at 614-365-5915 and leave a message and we will respond. You can also call the FACT line at 614-221-FACT.

Virtual Family Engagement Session: "Chromebook Basics"

Join us for our Virtual Family Engagement Sessions on Tuesdays and Thursdays. This Tuesday's session will be on "Chromebook Basics" - helping parents who might not be tech-savvy with information on how to help their child successfully use and navigate a District-issued Chromebook laptop. You can sign up at www.ccsch.us/Page/8212.

Sign up for Remind messages

Once the year starts I will send out daily morning announcements (as we would if we were at school) on the Remind App. If you and your student signed up in the Spring then you will continue to receive messages. If you are new to Briggs this year please follow the instructions below to receive messages:

STEP 1: Create a "new message" in whatever texting app you use.

STEP 2 – Type the number 81010 where you would usually type a phone number.

STEP 3 – In the body of the text put in the group code associated with your category below.

STEP 4 – You will receive a text that asks you to click on a link to download the Remind App. Click on the link if you don't already have the Remind App and download it. That's it!
