

PLAN NOW FOR A GREAT SUMMER!

FREE ENRICHMENT PROGRAMMING FOR ALL STUDENTS.

ELEMENTARY SCHOOLS

June 14 - July 22 (Monday - Thursday) ► **8:00 a.m. - 1:00 p.m.**

GRADES K-2: GROWING & GOING

Students will be immersed in enriching "summer camp" like experiences over a six-week period that will focus on strengthening academic skills and social emotional learning through problem-solving and project-based learning, team building activities, and theme-based design challenges.

Each week students will participate in a mini camp inspired by programming offered through the Franklin Park Conservatory. Students will build reading and math foundational skills, as well as participate in interactive, hands-on learning that engages the imagination and fosters critical thinking, creativity, collaboration and communication. Our campers will also have ongoing opportunities to engage with specialists from the Franklin Park Conservatory in and outside of the classroom.

Growing and Going Mini Camps

- Pollinators & Habitat Hunters
- Garden Gastronomy
- Jurassic Franklin Park
- Pirate Palooza
- Summer Science (Nature Detective)
- Arts in Nature

Campers will receive free breakfast and lunch each day and will experience a field trip expanding learning beyond the classroom walls.

GRADES 3-5: EXPLORING & EXCELLING

Students will be immersed in enriching "summer camp" like experiences over a six-week period that will focus on strengthening academic skills, leadership, and social emotional learning through problem-solving and project-based learning, team building activities, and theme-based design challenges.

Each week students will participate in a mini camp inspired by programming offered through the Center of Science and Industry (COSI). Students will build reading and math foundational skills through integrated problem-solving and project-based learning that fosters design thinking, ingenuity, initiative, collaboration and communication. Our campers will have ongoing opportunities to engage with specialists from COSI in and outside of the classroom.

Exploring and Excelling Mini Camps

- Gadgets to Go
- Mission to Mars
- Exploring Ecology
- Coaster Creators
- Gross Science - Body Works
- Superhero Science

Campers will receive free breakfast and lunch each day and will experience a field trip expanding learning beyond the classroom walls.
