

Safe Respectful Responsible Ready

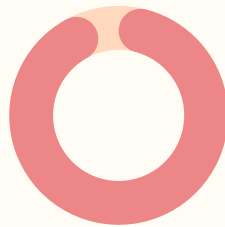

Windsor STEM School Counseling Spring Newsletter Stephanie Jorgensen LPSC sjorgensen1@columbus.k12.oh.us

The 2023-24 school year has been so fulfilling working with Windsor STEM Academy students. I am so grateful for the opportunity to work with them every day. Thank you for a wonderful year!

2023-24 School Counseling Program Data

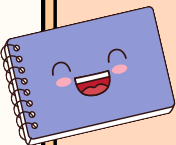

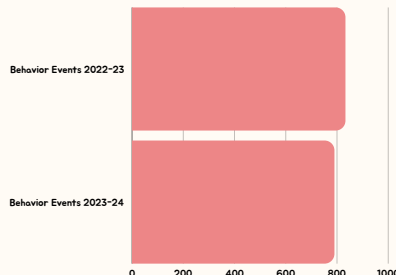

College & Career-
96 Percent of Windsor STEM Academy 6th Graders completed the Career Interest Survey on School Links.

Academics- Students who consistently participated School Counseling Small Groups saw an an average increase of 44.83 points on their Reading and 4.8 percent increase in Math iReady Scores from the beginning to the middle of the school year.

Social Emotional

Learning- By targeting Infinite Campus behavioral data with supportive services and small groups, behavioral incidents have decreased 5.2% this school year.

Safe Respectful Responsible Ready

Windsor STEM School Counseling Program

This school year has been packed with fun and exciting School Counseling activities at Windsor STEM! This Spring I have been working with Windsor teachers to provide classroom school counseling lessons or pull small groups weekly.

Social Emotional Learning- For February we celebrated Black History Month through an Artist Study of Kehinde Wiley. Wiley is most recognized for his portrait of Barack Obama displayed in the Washington Smithsonian. Students embodied the concept of living within and perceiving Windsor Staff and Community Members as being part of Black History. Staff volunteers posed in Renaissance poses Wiley has used in his portraits, students selected a staff member, cut them out and pasted them on a floral background done in the style of Wiley.

Academic- To kick off Women's History Month, we read a "A Street Called Home" by Aminah Robinson, a beloved artist and author from Columbus, in classroom guidance lessons. This magical pop up book inspired by Robinson's childhood experiences growing up in the Munt Vernon neighborhood fueled conversations about communities, roles and laws. In small groups and classroom lessons, students collectively created an Aminah Robinson styled Bulletin Board of South Linden by adding their trusted adults, community buildings and pictures of favorite landmarks.

College & Career- 6th Grade Leaders have continued to take monthly field trips with 6th graders from all over the city due to the collaboration of ONE Linden and The Ohio State University. This past March, Linden McKinley School Counselor, Ryan Miracle, came to visit 6th graders to discuss their transition to 7th grade.
