## Adjusting to Online Learning

### What, When, How?

During this time of online instruction, you will be given assignments and learning material through Google Classroom. In order to log into Google Classroom, you must use your CCS account. Once signed in, you can add my class to your list of classes (if you have not already done so). Each week, I will post 3-4 assignments that are due by the FRIDAY of that week. If you are unsure of how to use the features of Google Classroom, or need to brush up on some skills, please go to the link below for a tutorial.

If you are ever unsure of what to do for an assignment, or need help navigating Google Classroom, do not hesitate to contact me!

Biology (3 & 4): abx3pr2

Anatomy (1, 6, & 7): 3r2klmk

INSTRUCTIONS

3

COMPLETE AND TURN IN  
BY FRIDAY OF THAT  
WEEK

I will be available for parent phone conferences weekdays from 10-3. Students and parents may email me with questions or concerns at any time .

Don't!

**DON'T** Wait until Friday to complete the week's assignments. That is a good way to turn work in late and lose partial credit, and will only stress you out.

DO

Ask questions via email. Ask about extra credit opportunities. Ask for an extension of you need it.

**STAY HEALTHY!**
