New Edmentum/VCAP Log In through Clever

We are making a change in the way you log into Edmentum for your VCAP classes. It will take you a couple of minutes to set it up but once it's done it's going to make it easier for everyone who works with the program. Here is what you do:

1. On a school computer or Chromebook:
 - a. In your Chrome browser, type clever.com/in/columbuscity.
 - b. On the Clever page, if you see the active directory button, press it and you will be logged in to Clever.
 - c. If you are asked to put in your username and your password, use the same information you use to log on to the school computer. You will probably only be asked to do this the first time you log in.
 - d. On the Clever page you'll see a big E or the word Edmentum. Click that and you will be logged in to your VCAP classes.
2. If you are working on VCAP away from school do this:
 - a. In your Chrome browser, type clever.com/in/columbuscity.
 - b. If you see Columbus City Schools, click that link.
 - c. When you are asked to type in your username and password use your student ID followed by @columbus.k12.oh.us like this, 123456@columbus.k12.oh.us.
 - d. Your password is the same one you use to log in to a school computer.
 - e. You'll see the E or Edmentum link on the Clever page which will take you to your VCAP classes.

If you run into any problems, please email g Vance1@columbus.k12.oh.us
