

Drections	Points
Glue "Wastewater Treatment" diagram to front,	2
Cut "doors" between different stages	2
Color all initial wastewater and all sludge dark brown.	2
Color grit tank medium brown	1
<u>settling tank (Primary treatment) and beginning of secondary treatment tan</u>	2
<u>late secondary treatment and nitrogen removal tank light green</u>	2
<u>phosphorus removal tank light purple.</u>	1
<u>disinfection tank yellow</u>	1
<u>stream blue.</u>	1
<u>anarobic digestion and heat centrifuge gravity reddish brown</u>	2
notes on the inside	10
Critical thinking questions	6
total	31
